G. A. LYON
THE EVENING STAR
WASHINGTON, D. C.

May 18, 1925.

Dear Dr. Harris:

was (So many days have gone by since Mrs. Lyon and I were at the Institute that perhaps you have thought me a mere flitter without future. But I have not forgotten my promise to send you copies of my articles on the Island, and here they are, enclosed.

I had hoped to be able to devote a much larger space to the Polytechnic Institute than was possible in the final framing of my matter. Certain conditions, however, made it necessary to concentrate on the official happenings and enterprises mainly. Upon my return here I found a situation to have developed which required that particular stress be placed upon the accomplishments of the Insular administration. I hope, however, that the relatively brief mention of your splendid work at San German may have some good result.

was (This rather uncouth collection of clippings represents a sincere effort on my part to tell the story truthfully as I heard it and saw it in the Island. Some day I hope to return and to have a chance to write further. It is my confident expectation that I will then find the institution at San German one of the biggest things in Porto Rico

Mrs. Lyon joins me in best regards.

Sincerely yours,

G. A. Lyon
