Dear Eunice

I've been a very bad correspondent; indeed you might say - no correspondent at all. I'm growing old and lazy.

We have finished our trip to Cuba. Came over by "ferry" yesterday from Havana to Key West in six hours - a fine quiet trip. Tomorrow we hope to start driving home in the little Buick - Harry drives now - stopping along the way so as not

to get into cold weather.

Harry had his trunk removed two weeks before we left home. He is feeling very well now.

We saw a good deal of Cuba from Havana to Santiago - and various side trips - but no part of it can compare in beauty with your lovely island.

And the roads are impossible - we drove forty miles one day - twenty on the new National Highway just being made, and twenty over the worst roads I've seen - even Santa Domingo was not worse.

I'm very glad to hear about the resident  
matron in the girls' dormitory. I hope she is  
giving talks on hygiene, etc.

Probably Mrs. Miller told you that we are on  
the Building Committee to inspect plans for  
any new buildings. This includes the new  
dining room of course and I hope we can  
have an efficiency expert look at them  
as to equipment - incubator etc.

I suppose this is the time to plant gladioli  
again. I hope yours of last year are going  
to bloom again this year. And are the little

red lilies from Haiti still growing and  
blooming.

I've just written to Donald.

Harry send his regards to Bill.

Yours affectionately

Mary Heylman.
