Sept 19-1928.  
Mr. J. W. Harris  
Polytechnic Institute.

My dear Mr. Harris:-

It is very kind of you to increase my salary, but remember <sup>that</sup> I, although in need of money, do not merely work for it, I wish I had abundance of strength and money to help the school which I love so much.

I help the girls, a little, because I think, as a Christian, it is my duty, and besides, they are my neighbors and I owe part of my present happiness and smiles to them. I am thankful to God, that I have work to keep me busy, and I hope and trust to give my very best to it.

We certainly need the money, since

Rafael has not been able to work as he has to study harder than what he thought if he wants to make his master in a year.

Do not forget that I appreciate your protection and kindness to me and to my children as well as increasing my salary.

Please excuse my poor English.

Sincerely yours,

Virginia S. Latorca.
