President Don Baum.
Polytechnic Institute

My dear Mr. President:

Here is to you with all
my heart and prayers. The Lord
has opened to you a wonderful
opportunity to make friends in
* through the Synod's churches...
a wide open door. May God
bless you richly. It is no easy
job but a wonderfully happy one.

This because I have just
aside everything in the rewriting
and completing the history of
Poly. It has sapped my energy
for the whole 31 years in P. Rio
has passed through my thoughts.
my job to get the facts and put

them into a logical order. Any one
could write history, if he was not
troubled with facts. I could spend
another 4 months on it - but this is
enough. I hope it will be to the
advancement of - P.P.R. through
the years to come.

If everything works out I ex-
pect to go to N.Y. on or about the
20th inst. May spend the week
end with Roswell Miller. You
have two fine men in Wolfe and
Friday. I always had to push
it alone. Make hay while the sun
shines.

I would like to sit in on
your select meeting of "Business" men
on the 25th as an observer and
maybe get enough for an added
chapter for my book before or when
it goes to the press. Of course I
want to review and to deepen our
friendship by added knowledge.
Most cordially yours
Orville Stetson.
