My dear Lydia:

Here is a cut of Carlos Velez which appeared in both Morning and Evening editions of the San Antonio Dailies, the EXPRESS and the LIGHT. I cant tell you how glad I am to know that this great city of 450,000 has engaged Carlos to head up its TB Program. Like his older brother , Ismael, Carlos will really see that job is done well . Please send or give the extra copy to Ismael for his album of the Velez growing celeb-rities.

I am sending out literature of my clinic to some 200 multi-mil-lionaires in Texas with an imprint of the Master Elevated Plan of Poly on the back side of every sheet. It helps to make known Poly here in Texas where ther are many rich untapped people who in time may also help Poly. Tell Dr Seel that when he comes to Texas again we shall be glad to see him in our home. With love also to Guito and the children from us both

Cordially yours

*John William Harris*

*Over*

Lydia:

I have never received a diploma nor a hood of Poly ' s degree given me in May 1948. I sure would like to get both the hhood and the diploma to accompany my other two degrees from Park and the University of P.R. I appreciated Poly's above any other honor ever conferred on ~~me~~. If you ~~gma~~ could tickle the memory of the proper person, Leker or the Dean I will appreciate it. J.W.H.
