

THE HOLY BIBLE

IS

Composed of a collection of BIOGRAPHIES
AND IS

The faithful record of God's revelation to man as men are progressively able to understand God. It begins as a written revelation with Moses, and ends as a written revelation with Jesus Christ in the New Testament.

The complete understanding of this revelation never ends.

It is better understood as learning in the fear and love of GOD increases from generation to generation.

Man sees GOD'S face in communion and fellowship with God, His back in this world's creation, nature and the universe, Exodus 33:20-23 and Psalms 19:1-14.

Since January 1895 I have read the enclosed schedule for 61 times, praying daily "Open my eyes that I may see wondrous things out of Thy law."

The feeding of the 5000 is not presented as a MIRACLE. The thousands of men, women and children were far from a market. Like men the disciples had no food, only one lad is said to have had loaves and fishes which he offered to Christ. Christ took the loaves and fishes, held them up high for all to see. Possibly said "See what this lad has given" and blessed the gift. The mothers rushed forward with baskets of prepared food... sufficient for all to eat and they took up 12 basket fulls of fragments.

WHERE did the baskets come from? The mothers had prepared abundantly for their own families just as mothers do to this day when their families go out for a day.

I have raised money for the erection of a college and used this same method in getting others to give liberally. For instance, a widow called me into her home in Puerto Rico and asked me to sit down. She brought me a canvas bag and began to pile out silver dollars which she had polished and kept for my work, in piles of 20. Twenty five piles, \$500.00. She had me to count them and then putting them back in the bag gave them to me saying: "This is my gift to you for your noble work. I wish it were a thousand times as much.", and putting her arms around me kissed me on the cheek and said: "Dios te bendiga." That is what Jesus wanted to teach people the power of an example. I told other of Doña Antonia's gift and we needed the \$100.00 needed and erected the Girls Dormitory in the Polytechnic Institute of Puerto Rico. No miracle at all. Christ, the DIVINE SON OF GOD gave sight to the blind and so are our surgeons doing today.. Read TIME Magazine of last January.
