

Dear Eunice:

If I should die first you should (if health permits) stay on as Dean of women so long as you can back up the administration of the College. You have to expect a different way of managing affairs in the College. Be watchful to keep the spiritual above all things as far as you can bring your influence to bear.

Invest in gilt-edged bonds
all Insurance. viz -

With the Trustees. \$20,000⁰⁰

Commercial Travelers
Mutual Association \$10,000⁰⁰
of Utica N.Y.

Ministers Casualty \$3,000⁰⁰
Union of Minneapolis Minn.

The two farms in Texas

The one on Martin Beaulieu
near Dilley and the other
an 80 acre tract on highway
3 miles from Carrizo Springs
are to be kept free from
all mortgage and debts.

I would like to leave Donald
to take up my work here.
Be sure to give him or
who ever may be chosen, a
free hand to develop the
College. Our direction
and responsibility ceases
upon the selection of my
successor. Let us not forget
that. We should never
worry about changes for
God is directing and
will lead the college out
into what He wants
it to be, if we give Him

III.

time. It cannot fail for
I have committed it from
the first day to His keeping
and He has and will keep it.

Build you a small house
on one of the two places
and where you could spend
a ~~time~~ vacation from time
to time. When the two
boys leave home. It might
be well to go to College with
them and make a home
for them there but do not
make babies of them. They
must learn how to act
away from home.

Above all do not mortgage
anything nor put up
bonds as collateral. Live
on your income and
travel some, making

people happy where
you go. Let your troubles
and trials be buried
every day and forgotten.
Try always to be happy,
helpful and as useful
as possible as ^{long as} you live.

Keep your mind up
to date and keep open
to new ideas. The old was
good in its day but now
is a new day.

The Lord will help you
every day if you will let
Him - And this is our
daily confidence and
strength - His presence
and help.

This is my will and all
is yours.
