Dear Eunice:

Your letter was such a delightful surprise that I am still not quite sure that I might be dreaming. Anyway I have written you several times and never had a reply so I had about made up my mind that I no longer appeared on your friendship list.

As you say, it was not necessary to ask permission to see anything I may have written at one time or another about Politechnic Institute, but I am glad you decided to do so.

As I am not sure which articles you refer to I thought

I would look through my  
scrap book and send you  
what I had but only found  
one which appeared years  
ago in the Christian Endeavor  
works - There are others  
but they are in another  
scrap book which I cannot  
locate for the moment.

I am just back from a four  
months organizing tour  
in South America - visited  
six countries in all.

Mrs. Hildreth promised me  
that she would come to P. R.  
in November. The WCTU is  
celebrating its 30th anniversary  
at that time and as she  
was the first President  
she agreed to take part in  
the program. Perhaps  
she has changed her mind  
It is all yours all anyway?  
Would love to keep in touch  
with you  
Edith
