

Lighthouse

Photographed and produced by B. A. King

Dear John:

Greetings from the cool, brisk "north". I've kept wanting to write for some time already to find out how the paperback edition of "Riding & Roping" has turned out and would be glad if you could send me one.

After a miserable winter the first 50-60 degree days feel wonderful. Betsy & I spent a week on Cape Cod ten days ago with remnants of snow & much damage from the great blizzard reminders of a season we all love to forget.
