April 27-1966.

Dear Dr. Bauer:

Thinking that what my book contains might be helpful to you at this time I am sending you in separate package the original copy. After reading it or rather while reading it please note down any suggestions on a separate sheet and slip it so I can adjust or cut it out.

Our P.O. is closed Sat. & Sunday, and so may not get it off to you before Monday. Via Ric. should reach you by midweek.

I have finally returned to my normal health. Not so much the food but the strain

and rejoicing with those blessed  
ex-students produced excitement  
which was alright for Heaven but  
hard on mortal flesh.

I certainly enjoyed every day  
of my stay - and so did my  
children - especially for the  
two nights' return to home  
Vista - and its memories.

Margaret and Donald both feel  
that Polg is the only place where  
they would really love to live again  
in Puerto Rico.

My love also to the whole family  
and the dwarf Cullie.

Sincerely yours.

Bill Harris

No rain as yet here.

Did you see the P.R. Evangelica 10 de  
Abril de 1956? There are two very  
good articles. one by the Editor other  
by Pagan.
