

ESCUELA GUILLERMO ESTEVES
NARANJITO
OFICINA DE LA PRINCIPAL

Feb. 26, 1940.

My dear Dr. and Mrs. Herrie:

It was a great disappointment to know that we could not have you with us as planned; but we understand that your short days in Puer. to Pico are so full of love duties, that you can not count them as yours.

This morning, when I told the teachers about your visit, they felt the disappointment with me; especially Toyita (my sister) and Rafaela Cabrera (a Polytechnic girl from Corozal) who work with me. The others have heard so much about you, that they wanted to share the honor of knowing you.

We are planning to go to San Germán on Saturday, but as we have our problem of Lopez's weekly trips to Sabinao, all depends on how tired he may get home on Friday to start on a trip to San Germán early on the next day. You understand how those trips wear out a person. — This year has been very hard on us on account of that separation. We have a nice home we can not enjoy fully —

In case we can not go to San Germán, please let us know if definitely you leave on March 8, from Arroyo. We will try

to be there to wave you in our good-bys
our sincere regards to all the family.

Hoping to see you again, and with
our best wishes for a full enjoyment of your
trip,

Sincere love from,

Pilar & Concepcion.

P.S.

I am enclosing a note Jose Vazquez has
just sent me. He is the Principal of a
second Unit in Karanjute.
