

April 27th

S. S. SAN LORENZO

My dear Mrs. Harris,

Warm beautiful Porto Rico seems very far away. There is a cool breeze from the north blowing as we are due in New York early tomorrow morning.

The trip has been delightful as far as weather goes, but we found a boat load of Porto Ricans a noisy affair!

Tell Dr. Harris his wish for us came true! Last night we had quite a blizzard which kept up until noon today. The waves were wonderful & looked like great blue mountains with snowy tops. We were all able to enjoy the thrill of it & it made the right ending to our perfect trip.

Roswell & I did so enjoy our
steamer letters from you & Dr. Harris.
Thank you many times again for
all your kindness & thoughtfulness to
us. The visit at "Loma Vista" will
never be forgotten, we did most
thoroughly enjoy it & we are both so
glad to feel we know all the
Harrises now.

By the time this reaches you I hope
Helmi will be back quite recovered
from her operation.

Tell Dr. Harris that we missed him
very much. The trip did not seem right
without him.

Roswell joins in thanks to you both
for all our good times & with love to
all, I am, Yours affectionately, Margaret Phillips
